

OIL superdrain

Version 03/2020

The hole mat for wet, greasy and oily workplaces with the AGR seal of approval.

- o The rubber mat is **resistant to** oil, grease, commercial refrigeration lubricants, fuels and non-polar solvent.
- o Due to the **nub structure**, the hole mat is **extremely non-slip**.
- o The **hexagonal hole geometry** allows a large number of holes in the smallest possible space - this results in an even **faster drainage of liquids**.

Upper Surface	Size	Fire protection class	Material	Hardness	Colour
OIL Superdrain	1350 x 1000 x 18 mm*	Bfl-s1**	NBR***	55 Shore A	

* Tolerances according to DIN ISO 3302 - 1 M4; ** According to EN 13501 resistant to short-term flying sparks and welding beads
 *** Slight discolouration may occur on light floors

Surface and backside geometries
